MEMORANDUM FOR THE RECORD

SUBJECT: Laos Ceiling

Met with Messrs. Ed Braswell and Jim Woolsey, Senate Armed Services Committee staff, who told me in some confidence that yesterday there had indeed been discussion of a [REDACTED] ceiling for Laos which would exclude air support, but that today the discussion took a different turn and they were now considering excluding only certain types of air support which might result in a ceiling of between [REDACTED]. They explained, however, these figures were all quite tentative still.
